TO : WHOM IT MAY CONCERN

**SPOT METER READING SYSTEM (SMRS) FOR DISTRIBUTION DIVISION,  
TENAGA NASIONAL BERHAD**

This is to certify that Tenaga Nasional Berhad has implemented the above system with our vendor Powercomp Automation Sdn Bhd since 1993 and upgraded the system in 2005.

The total number of Industrial Casio handheld and Zebra Portable Thermal Printer is 1698 and was implemented in 8 working months starting April 2005 and ending in November 2005 for the whole of peninsula Malaysia.

The implementation of the wireless system transferring data from Industrial handheld to the thermal printer and from Route Manager to/from the backend system has been smooth and effective. The improvement of speed and performance has met the expectation.

Thank you.

Yours truly,

**TNB- POWERING THE NATION**

  
Nazariah Ibrahim  
General Manager (Finance)  
Distribution Division  
Tenaga Nasional Berhad
